

ProQuest Research Assistant

ProQuest Research Assistant 是我們攜手圖書館員、學生與教師共同打造，旨在利用 AI 技術破解研究難題，優化工作流程。

- 精準檢索
- 引導式操作
- 客觀解析
- 關鍵概念
- 延伸主題

一鍵生成同義詞和相關主題詞：助力使用者輕鬆構建結構化布林檢索式，一鍵添加相關檢索詞。

洞察核心要點：根據當前查看的文獻提供個人化洞察，歸納核心要點，協助用戶快速判斷相關性。

Here is the **key takeaway** for this document.

Density lowers the per-person cost of public transport, which reduces car use and can lead to substantial emissions savings through policies like 'demolish and densify'.

建議後續步驟：引導用戶前往有用資源，進一步探索文獻中討論的重要概念。

Here are important **concepts** discussed in this document and why they are important.

- Green Alliance:** A pressure group in Britain advocating for environmental policies, particularly in relation to urban density and public transport. Its research supports the idea that increasing density

…或 建議研究課題：根據當前文獻，提供研究課題建議，啟發研究靈感。

Here are **research topics** based on this document.

- Impact of urban density on emissions: Understanding how urban density affects transportation emissions is crucial for developing sustainable city planning strategies.
