About OECD iLibrary

The Organisation for Economic Co-operation and Development (OECD) provides its member countries with a forum to work together, share experiences and seek solutions to common problems.

The breadth of knowledge that the OECD produces is available in our online platform, OECD iLibrary. It contains a vast collection of books, papers and statistics, some of which date back to the 1960s. OECD content covers over 100 countries with some key titles containing executive summaries in up to 25 languages.

Gender and Transport (Working Paper, English)
01 Apr 2011, Chantal Duchene, Pages: 20, in International Transport Forum Discussion Papers
2
While greater account is increasingly being taken of gender in a variety of areas, little progress has been made in this respect in the transport sector. In both developed and developing countries, our societies are gendered in that women and men...
